

GOPA
Group US

HARNESSING SYNERGIES, POWERING IMPACT

MEMBER OF GOPA CONSULTING GROUP

A tested and trusted partner

For over 60 years, GOPA has been delivering sustainable development solutions. Trusted by leading development agencies, multilateral organizations, international financial institutions, government ministries, and public entities across five continents, GOPA companies skillfully navigate some of the most challenging contexts to deliver meaningful and measurable results that last.

GOPA has been a valued partner to the U.S. government for more than a decade. Since 2009, GOPA companies have implemented over 35 Millennium Challenge Corporation projects, including four active projects in sub-Saharan Africa – all focused on results, impact, and value for money.

A global network of expertise

GOPA Consulting Group has six core companies, each with a different technical focus and complemented by branch offices and subsidiaries tailored to unique market needs. GOPA staff and consultants bring a nuanced understanding of local conditions and reach across disciplines to provide integrated, sustainable solutions. Our six main service lines address some of the most complex, interconnected development challenges in countries around the world.

Health, Education and Employment.

We bring multisectoral expertise to develop integrated solutions that help ensure education systems meet the needs of young people, workers are ready to meet today's challenges, and health care is of the highest quality and accessible to all. Our expertise ranges from strengthening

We connect funders to new ideas, resources, and networks so they can achieve development breakthroughs.

healthcare systems and reforming health programs and policies — to building capacity and developing curricula, materials and tools for education systems — to designing effective labor market policies and employment strategies.

Agriculture, Food and Natural Resources. We collaborate with partners to improve rural livelihoods, boost food security, and promote sustainable resource management. Our agriculture and agribusiness expertise spans production, processing, and marketing, empowering local businesses and small and medium-sized enterprises to create income and jobs. Our approach emphasizes climate-resilient production and smart ICT applications to address climate change and protect the environment. Our green finance experts design tailored strategies and innovative financial products, facilitating the shift towards a resilient economy.

We are the U.S. subsidiary of GOPA Consulting Group (GOPA), a multidisciplinary group of European consulting and engineering companies dedicated to achieving sustainable development results for a better tomorrow. We leverage the deep and global expertise across these companies, working in over 1,000 projects across the globe, to enable funders to deliver solutions to some of the world's most pressing problems.

GOPA staff and consultants reach across disciplines to provide integrated, sustainable solutions.

Infrastructure. Infrastructure is the bedrock of development. Our expertise in architecture, urban development, transport and mobility, integrated solid waste management, and water enable us to tackle urgent and complex challenges, from urbanization and climate change to rebuilding societies after conflict and migration.

Energy. Our team of engineers, economists, and consultants excels in crafting innovative, cost-effective solutions for global power system design and enhancement and sustainable energy technology application. Whether securing energy grids, integrating renewables, or providing environmental assessments and economic analysis, we oversee the entire journey, from planning and design to energy generation and transmission, with a clear focus on integrating renewable, environment-friendly resources.

Good Governance and Human Rights. We specialize in fostering accountable, transparent governance systems and safeguarding fundamental human rights. From policy management and capacity building to anti-corruption and judicial reform support, our tailored solutions advance social justice, equity, security and rule of law, ensuring a fair and empowered society for all.

GOPA Consulting Group at a Glance

- We are a group of six core consulting and engineering companies with over 60 branch offices and subsidiaries in more than 40 countries
- Working in 95 + countries worldwide
- More than 900 staff and 5,000 international and local consultants
- Founded in 1965

Economic Growth and Communication.

We empower nations to foster business-friendly environments and equip enterprises to grow and integrate into global value chains, with the aim of benefiting not only businesses but also civil society, including the most vulnerable. Our financial sector development experts excel in building sound financial support networks for all layers of society. Our cross-cutting in-house communication, statistics, and monitoring teams provide expertise and tools for smarter decision-making, clear messaging, targeted communications, and efficient program design, yielding more effective results for the people we serve.

Our value

GOPA US offers funders in the United States new partnerships, fresh perspectives and access to GOPA Group's vast global network, with deep local roots. We bring tested models, new tools and networks, and private sector approaches that focus on meeting local needs and delivering lasting results.

- **Technical excellence.** We tap into the diverse expertise of GOPA Group companies, who bring best-in-class technical expertise, insights from local networks, and lessons learned from current and past projects.
- **Cutting-edge research and technology.** Technical skills and proven methodologies are combined with state-of-the-art technology and pioneering research to deliver solutions that exceed expectations.
- **Local knowledge, expertise and networks.** Our regional hubs and country-based branch offices and subsidiaries are staffed by people from the communities in which they work. This enables us to continuously improve operational efficiency, remain closely connected to decision-makers and local communities, and ensure solutions are fine-tuned to local needs.
- **Community empowerment.** We engage stakeholders at various levels from the start, ensuring activities are locally driven and geared towards achieving the best results that meet locally expressed needs.
- **Private Sector Experience.** We apply private sector best practices, including financial management and quality assurance, in all that we do. Our knowledge and expertise allow us to effectively engage the private sector in development initiatives while providing valuable assistance to governments and regulators in supporting these collaborations.
- **Program and Project Management.** GOPA Consulting Group companies share centralized services to create economies of scale, maximize efficiencies and add value. This model provides solid project management procedures and templates and tools, supports seamless collaboration in complex project settings and on cross-cutting issues.

GOPA Consulting Group Companies: A full service provider.

Each of our companies has a different technical focus. Together, we create a unique ecosystem that enables us to bring integrated solutions to address increasingly complex and interrelated challenges.
